<b>Preface</b> .....	<b>11</b>
<b>Chapter 1 • Pixels, Images, Image Files, and Camera Terminology</b> .....	<b>12</b>
1.1 Overview .....	12
1.2 Pixels .....	12
1.3 Pixel Colours .....	12
1.4 Image Files .....	13
1.4.1 JPEG .....	13
1.4.2 TIFF .....	14
1.4.3 GIF .....	15
1.4.4 BMP .....	15
1.4.5 PNG .....	16
1.5 Camera Terminology .....	17
1.6 Summary .....	18
<b>Chapter 2 • Raspberry Pi and Arduino Compatible Cameras</b> .....	<b>19</b>
2.1 Overview .....	19
2.2 Raspberry Pi Cameras .....	19
2.2.1 Standard Raspberry Pi Daytime Cameras .....	19
2.2.2 Standard Raspberry Pi Infrared Cameras .....	21
2.2.3 Unistorm Night Vision Raspberry Pi Camera .....	22
2.2.4 Raspberry Pi Camera Accessories for CSI Bus Cameras .....	22
2.2.5 Webcam Cameras .....	24
2.3 Arduino Uno Cameras .....	25
2.3.1 ArduCAM OV2640 Camera .....	25
2.3.2 ArduCAM OV5642 Camera .....	25
2.3.3 Arduino JPEG Camera Shield .....	26
2.3.4 ArduCAM MT9D111 Camera .....	26
2.3.5 TTL Serial Camera .....	27
2.4 Summary .....	27
<b>Chapter 3 • Raspberry Pi Camera Projects</b> .....	<b>28</b>
3.1 Overview .....	28
3.2 Installing the Camera .....	28
3.3 Project 1 - Still Camera Commands .....	30

3.3.1 raspistill. . . . .	30
3.4 Project 2 – Building a Timelapse Camera – Who is in My Parking Place?. . . . .	36
3.5 Project 3 - Video Camera Commands. . . . .	42
3.6 Using USB Camera With Raspberry Pi . . . . .	43
3.7 Project 4 – Who is Ringing My Doorbell? – Bluetooth Solution. . . . .	51
3.8 Project 5 – Video Live Streaming on YouTube . . . . .	55
3.9 Summary . . . . .	60
<b>Chapter 4 • Simple Raspberry Pi Camera Projects using Python . . . . .</b>	<b>61</b>
4.1 Overview . . . . .	61
4.2 Python picamera Library. . . . .	61
4.3 Using the Camera in Python Programs . . . . .	61
4.4 Project 1 – Capturing Multiple Pictures . . . . .	61
4.5 Camera Settings . . . . .	63
4.5.1 Adding Text . . . . .	63
4.5.2 Changing the Brightness and Contrast of Images . . . . .	64
4.5.3 Image Effects. . . . .	65
4.5.4 Exposure Modes . . . . .	65
4.5.5 Other Settings . . . . .	65
4.6 Taking Consecutive Images. . . . .	65
4.7 Taking Images Continuously . . . . .	66
4.8 Project 2 – Timelapse Image Capture. . . . .	67
4.9 Project 3 – Capturing Pictures using a Button – Taking Selfie Pictures . . . . .	68
4.10 Project 4 – Taking Selfie Pictures: Using a Buzzer . . . . .	72
4.11 Project 5 – Taking Selfie Pictures: Timed Photography with Buzzer . . . . .	75
4.12 Project 6 – Taking Selfie Pictures: Using a Display . . . . .	77
4.13 Project 7 – Taking Selfie Pictures: Adding a Soft Keyboard to Desktop . . . . .	84
4.14 Project 8 – Taking Selfie Pictures: Using Soft keyboard – Taking Multiple Pictures . . . . .	86
4.15 Project 9 – Designing a Photobox. . . . .	88
4.16 Project 10 – Activating the Photobox from the Desktop . . . . .	90
4.17 Project 11 – Capturing Video: Using a Button to Start/Stop Recording . . . . .	93
4.18 Project 12 – Designing a Digital Photo Frame . . . . .	95
4.19 Project 13 – Sending Email of a Captured Image. . . . .	96

---

4.20 Project 14 – Who is Ringing my Doorbell? E-mail Solution . . . . .	99
4.21 Project 15 – Recording Video of Wildlife using PIR Sensor. . . . .	102
4.22 Project 16 – Posting a Picture to Twitter . . . . .	107
4.23 Summary . . . . .	113
<b>Chapter 5 • Making a Motion Activation Spy Camera. . . . .</b>	<b>114</b>
5.1 Overview . . . . .	114
5.2 Detection of Motion . . . . .	114
5.3 Project 1 – Motion Activated Spy Camera . . . . .	114
5.4 Project 2 – Motion Activated Spy Camera with LED . . . . .	118
5.5 Summary . . . . .	120
<b>Chapter 6 • Raspberry Pi Camera Flash Light . . . . .</b>	<b>121</b>
6.1 Overview . . . . .	121
6.2 Project 1 - Unsynchronized Flash Light. . . . .	121
6.3 Project 2 - Synchronized Flash Light . . . . .	124
6.4 Summary . . . . .	127
<b>Chapter 7 • Designing a Raspberry Pi Surveillance Camera System . . . . .</b>	<b>128</b>
7.1 Overview . . . . .	128
7.2.1 The Motion Library . . . . .	128
7.2.2 Configuring Motion Software . . . . .	128
7.2.3 Starting the Motion Server. . . . .	130
7.2.4 Customizing the Motion Server. . . . .	131
7.2.5 Sending E-mail when a Motion is Detected. . . . .	132
7.2.6 General Notes . . . . .	134
7.3 Summary . . . . .	134
<b>Chapter 8 • The motionEyeOS Surveillance Software . . . . .</b>	<b>135</b>
8.1 Overview . . . . .	135
8.2 Installing the motionEyeOS. . . . .	135
8.3 Initial Configuration . . . . .	138
8.4 Advanced Configuration . . . . .	139
8.5 Configuring for Motion Detection and Automatic Sending Email. . . . .	140
8.6 Summary . . . . .	142
<b>Chapter 9 • The OpenCV Software Package. . . . .</b>	<b>143</b>

9.1 Overview . . . . .	143
9.2 Copying the Raspberry Pi microSD Card . . . . .	143
9.3 Install the OpenCV Software Package on Your Raspberry Pi . . . . .	145
9.4 Using the OpenCV Software Package on Raspberry Pi . . . . .	149
9.4.1 Connection using the 7 inch Raspberry Pi Display . . . . .	149
9.4.2 Connection using the Putty and vncserver . . . . .	149
9.4.3 Connection using the Putty and Xming . . . . .	150
9.5 Basic OpenCV Image Operations . . . . .	152
9.5.1 imread(), imshow(), waitKey(), destroyAllWindows(), imwrite() . . . . .	153
9.5.2 Drawing Shapes . . . . .	155
9.5.3 Image Transformations . . . . .	159
9.6 Edge Detection – Canny Edge Detection . . . . .	164
9.7 Circle Detection – Hough Circle Transform . . . . .	165
9.8 Line Detection – Hough Line Transformation . . . . .	167
9.9 Arithmetic Operations on Images . . . . .	169
9.9.1 Adding Images . . . . .	169
9.9.2 Subtracting Images. . . . .	171
9.10 Morphological Operations on Images . . . . .	173
9.11 Simple Geometric Shape Recognition . . . . .	174
9.12 Blurring/smoothing an Image . . . . .	176
9.13 Detecting Colour in Images . . . . .	178
9.14 Project 1 – Face and Eye Detection . . . . .	180
9.15 Summary . . . . .	182
<b>Chapter 10 • Capturing Images from the Camera using OpenCV . . . . .</b>	<b>183</b>
10.1 Overview . . . . .	183
10.2 Capturing Images From a Raspberry Pi Camera using OpenCV . . . . .	183
10.2.1 Project 1 – Capturing Several Images . . . . .	185
10.2.2 Project 2 – Timelapse Image Capture . . . . .	186
10.2.3 Project 3 – Timelapse Image Capture at Specified Times . . . . .	187
10.3 Video Recording with a Raspberry Pi Camera using OpenCV . . . . .	188
10.4 Using USB Camera with OpenCV . . . . .	189
10.4.1 Project 4 – Capturing Multiple Images . . . . .	190

---

10.4.2 Capturing Video Frames with OpenCV using USB Camera . . . . .	191
10.4.3 Project 5 – Recording Video . . . . .	192
10.5 Summary . . . . .	194
<b>CHAPTER 11 • Using the SimpleCV in Camera Projects . . . . .</b>	<b>195</b>
11.1 Overview . . . . .	195
11.2 Barcodes . . . . .	195
11.2.1 Code 39 . . . . .	195
11.2.2 Code 128 . . . . .	195
11.2.3 Universal Product Code . . . . .	195
11.3 Project 1 – Barcode Password . . . . .	196
11.4 Project 2 – Motion Detection with Buzzer . . . . .	200
11.5 Summary . . . . .	202
<b>Chapter 12 • Using Camera with Arduino . . . . .</b>	<b>203</b>
12.1 Overview . . . . .	203
12.3 Project 2 – Arduino Uno SD Card interface: Reading/Writing to the Card . . . . .	208
12.4 The Arducam Camera . . . . .	213
12.4.1 Arducam Interface . . . . .	214
12.4.2 Multi Camera Interface . . . . .	215
12.4.3 Project 3 – Capturing Image with the Arducam and Arduino . . . . .	215
12.4.4 Project 4 – Timelapse Photography with the Arduino . . . . .	226
12.4.5 Project 5 – Image Capture with an External Shutter Button . . . . .	231
12.5 Summary . . . . .	237
<b>Chapter 13 • Automatic Number Plate Recognition . . . . .</b>	<b>238</b>
13.1 Overview . . . . .	238
13.2 Vehicle Number Plates . . . . .	238
13.3 The OpenALPR Library . . . . .	238
13.4 Using With the Command Line . . . . .	238
13.4.1 Project 1 - Recognizing Number Plate from a File . . . . .	238
13.4.2 Project 2 - Recognizing from the Camera . . . . .	240
13.5 Using OpenALPR with Python . . . . .	242
13.5.1 Project 3 – Recognizing Number Plates with Python . . . . .	242
13.5.2 Project 4 – Daddy is Home, Put the Kettle ON! . . . . .	244

13.6 Summary . . . . .	247
<b>Appendix A • Raspberry Pi 3 Pin Layout . . . . .</b>	<b>248</b>
<b>Appendix B • The ESP-EYE . . . . .</b>	<b>249</b>
B.1 Overview . . . . .	249
B.2 Face Detection and Recognition. . . . .	250
B.3 Adding a New Face . . . . .	251
B.4 Delete an Existing Face . . . . .	251
<b>Index . . . . .</b>	<b>252</b>
